

# Codes of Boating

1. Depends on your boat size, avoid sailing into very shallow inshore waters especially during low tides.
2. Avoid sailing over shallow coral area inside marine parks and areas demarcated with coral marker buoys, and go slowly and exercise special care when approaching coral areas in deeper water.
3. Do not anchor in coral areas.
4. Approach and leave coral areas in a direction perpendicular to the shore.
5. Do not litter or pollute the environment.
6. Do not collect, disturb or hurt any living marine organisms
7. For safety reason, do not sail into the coral areas with snorkellers and within an area of 30 metres radius from a dive-flag.
