

在草地和園境 安全使用除害劑

保養草地和園境時應採用綜合蟲害防治方法(IPM)，此舉不但能減少使用除害劑，而且能提升蟲害防治效果，有助保障市民健康和保護環境。

如必須使用除害劑，應注意：

1 只使用已註冊和附有正確標籤的除害劑。閱讀和遵照標籤上的指示，尤其是稀釋方法、使用份量和相關安全措施等事項。

安全及正確
使用除害劑

Safe Use of Pesticides on Turf and Landscapes

Integrated Pest Management (IPM) should be adopted in the maintenance of turf and landscapes. This would not only reduce the use of pesticides, but also enhance the effectiveness of pest control as well as safeguard public health and the environment.

If the application of pesticides is necessary, the following points should be noted:

1 Use only registered and properly-labelled pesticides. Read and follow the instructions on the label, in particular, the dilution methods, application rate, relevant safety precautions, etc.

2 Wear protective clothing, gloves, goggles and a face shield when mixing and applying pesticides.

3 Pay attention to weather conditions. Do not spray in strong wind or headwind, or if rain is expected within the next few hours.
