對你有何影響？ How you are affected?

根據有關法例，任何人若明知而向環境釋出未獲核准的基因改造觀賞魚（例如螢光基因改造斑馬魚及螢光基因改造青鱒魚），即屬違法。

Under the Ordinance, any person who knowingly releases unapproved genetically modified (GM) aquarium fish (e.g. fluorescent GM zebra fish and fluorescent GM rice fish) into the environment commits an offense.

在進口或出口基因改造觀賞魚時，供應商需符合文件規定。
Traders should comply with the documentation requirements when importing or exporting GM aquarium fish.

擬進口作圍封使用 (例如飼養在設有有效措施以防止逃逸到開放環境中的水族箱內作觀賞用途) 的基因改造觀賞魚，不需要申請事先核准。

Prior approval is not required if the GM aquarium fish are imported for contained use, such as being kept inside an aquarium tank for display purposes with measures to effectively prevent their escape into the environment.
