Agriculture, Fisheries and
Conservation Department

有機耕作知多點

有機耕作的原則

- 與環境生態互相配合，以自然保育、可持續發展的理念進行作物生產
- 不使用任何化學肥料、化學農藥及基因改造物料
- 與大自然和諧並存，保存生物多樣性
- 使用一些有機操作方式去控制病蟲草害及建立健康肥沃的土壤

Principles of Organic Farming

- Relies on ecological management and produces crops in an environmentally friendly and sustainable manner
- No chemical pesticides and fertilizers or genetically engineered materials are used
- Works in harmony with nature and preserves biological diversity
- Adopts organic practices to manage pests and maintain soil fertility
