

## Biodiversity Strategy and Action Plan

### Business Focus Group Discussion Forum: How is it relevant to business sector and what can be done to support it?

13 February 2014, 9:30am – 11:30am  
BEC Auditorium

The Environment Bureau and the Agriculture, Fisheries and Conservation Department have embarked on an exercise to develop a city-level Biodiversity Strategy and Action Plan (BSAP). As a government-community collaboration, BSAP will be developed under the Convention on Biological Diversity (an international treaty on the conservation of biodiversity, the sustainable use of its components, and the fair and equitable sharing of benefits deriving from the use of genetic resources).

In this Business Focus Group Discussion Forum, there will be an introductory video on what biodiversity is and how it is relevant to Hong Kong, an introduction of the BSAP process, and sharing of business, NGO and environmental practitioners' views.

You are invited to join and share your views and aspirations and help formulate the action plan.
