by email
ym_mak@afcd.gov.hk

The successful registered teams for HKRC 2010 will be notified before **17 May 2010**.

Liability release
Signed by each Team member

I acknowledge that Reef Check is a volunteer program. I recognize that I do not have to participate. I acknowledge that I have chosen to follow the Reef Check survey methodology because it provides one suitable way of collecting scientific information, and not because it minimizes any of the risks of SCUBA diving. I recognize that SCUBA diving is an inherently risky activity and I expressly assume all risk associated with SCUBA diving in any way affiliated with Reef Check. Moreover, I hereby release and hold Reef Check harmless for any and all negligent acts in any way related to Reef Check activities. I have chosen to do this volunteer work of my own free will for the purpose of contributing to science and coral reef conservation and I agree that I, and only I, shall be responsible for my safety, and any injuries I may sustain. I agree that I will not hold liable or responsible Gregor Hodgson, the Institute of the Environment, University of California or any personnel associated with any of the above, whether employees, agents, independent contractors, team leaders or other volunteers. I absolve all of them from any responsibility for my safety or any injuries which I may suffer in the process of following the Reef Check survey methodology, or any deviation from it.
