

MARINE PARK AMBASSADOR SCHEME 2025 ACTIVITY HIGHLIGHTS

In 2025, we successfully completed 10 activities, including training workshops and volunteer services.

Ambassadors not only enhanced their understanding of Hong Kong's marine ecology but also actively supported the department's marine conservation efforts, making valuable contributions to marine conservation.

March Learning Activity: The Swire Institute of Marine Science, The University of Hong Kong

Through guided tours and interactions with researchers, the ambassadors gained insight into marine science and conservation efforts, inspiring their interest in marine protection.

June Learning Activity: Hong Kong Maritime Museum

Ambassadors gained in-depth knowledge of local maritime history, port development, and maritime trade, and explored the local marine culture and historical context . They also learned how human activities impact the underwater world and reflected on the crisis of diminishing marine biodiversity and the importance of conservation.

November Learning Activity – Hoi Ha Wan Glass-Bottom Boat Coral Ecology Tour

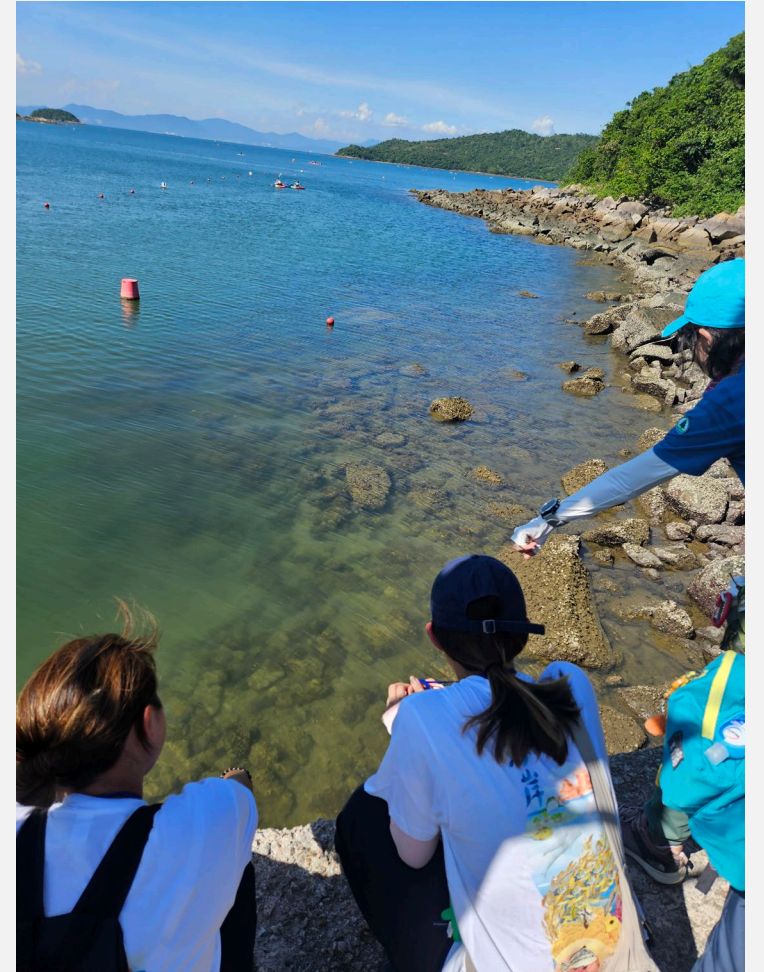

Ambassadors embarked on a glass-bottom boat tour to explore underwater coral communities. With live commentary from professional eco-guides, they learned about local coral species, symbiotic relationships, and the role of marine protected areas in sustaining biodiversity.

Volunteer Services

Ambassadors took part in beach cleanups coastal etiquette promotion activities, taking practical action to protect local coastal ecosystems, including:

- Supporting the launch ceremony of Restocking Exercise, Hong Kong Reef Check Opening Ceremony, Hong Kong Underwater Photo and Video Competition
- Water Sports Etiquette Promotion activity
- Cleanup Activity at Shui Hau Beach, Lantau

Marine Park Ambassador Training Workshop

Ambassadors completed the training workshop, where they acquired fundamental knowledge about Hong Kong marine parks and marine conservation work, ensuring they are adequately equipped to fulfill services.
