

## Revision of Mountain Bike Site at Sai Kung West Country Park (Wan Tsai Extension)

Starting from 1 October 2018, this Department will revise the mountain bike site at Sai Kung West (Wan Tsai Extension) Country Park, from the current arrangement of allowing biking on the entire peninsula to allowing biking on designated trail only (see the plan below). This latest revised trail alignment, together with a small footpath connecting to Hoi Ha Village, has a total length of about 5 km. They together will be renamed as Hoi Ha to Wan Tsai Mountain Bike Trail. The new arrangement aims to enhance protection of existing vegetation and the cycling safety of bikers (e.g. designated mountain bike trail can reduce the chance of bikers getting lost in the wood; it could also reduce the difficulty of search and rescue operation in case of accidents).

Pursuant to Regulation 4(1) of the Country Parks and Special Areas Regulations (Cap, 208A), no person shall, except with the consent of the Country and Marine Parks Authority, ride or possess bicycle at area outside the designated mountain bike trails in country parks. Offenders will be prosecuted. Thank you for your attention.
