Conservation Department

# Introduction

To promote the development of leisure fisheries, recreational fishing rafts are permitted to sell specific food and beverages without requiring a food licence, provided that these activities do not impact fish culture operations or the environment within designated fish culture zones. The measures aim to diversify recreational fishing experiences while creating additional income for mariculturists.

## Guidelines for the Sale of Specific Food and Beverages on Recreational Fishing Rafts

Licensees with a valid Recreational Fishing Consent Letter ("Consent") are allowed to sell specific food and beverages on the fish rafts in accordance with the Conditions specified in the Consent.

The specific food and beverages include:

When conducting the sale of specific food and beverage, licensees shall adhere to the following guidelines:

- Licensees are allowed to have a microwave oven and an electric kettle on the fish raft for visitors' use

- Licensees are only allowed to sell the food and non-alcoholic beverages specified on the list

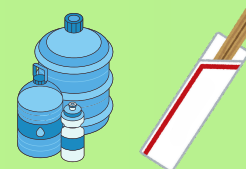

- Recreational fishing and food and beverage sales operations shall be confined to the area delineated on the recreational fishing floor plan

- Licensees should store the specific food and beverages for sale properly, including but not limit to the installation of appropriate freezer for pre-packaged cooked frozen foods

- Licensees should provide clean drinking water and disposable tableware during the operation of specific food and beverage sales on the fish raft

- Licensees and operators are prohibited from cooking for visitors
