## INTRODUCTION

---

香港雖是彈丸之地，但海洋生態系統和生物多樣性十分豐富。為保護這些珍貴的海洋資源，漁農自然護理署（漁護署）一直致力推廣環境教育。在2019–20學年，我們將舉辦一系列的教育及宣傳活動，以提高學生對香港海洋環境和物種的認知及保育意識。這些活動包括學校講座、海岸導賞團、考察活動、清潔活動、展板借用服務、多種比賽及巡迴展覽。

透過舉辦不同的教育活動，我們希望能與學校和老師攜手合作推廣環境教育，鼓勵學生藉著親身參與和實際行動，認識及保護我們的海洋資源。

Despite its small size, Hong Kong has a rich diversity of marine habitats and marine life. To protect these precious marine resources, the Agriculture, Fisheries and Conservation Department (AFCD) is committed to promote environmental education in the society and schools. In 2019-20 school year, AFCD will organise a series of education and publicity activities to enhance students' understanding of Hong Kong's marine environment and marine life, and their awareness of marine conservation. These activities include school seminars, coastal guided eco-tours, field studies, cleanup activities, exhibition panels borrowing service, different competitions and roving exhibitions.

By organising various activities, we look forward to collaborating with schools and teachers to promote environmental education and encourage students to take practical actions to conserve and protect our marine resources.
