簡介

Introduction

香港雖是彈丸之地，但海洋生境及生物的多樣性十分高。為保護這些珍貴的海洋資源，漁農自然護理（漁護署）一直致力推行環境教育。在 2020-21 學年，漁護署將舉辦一系列教育及宣傳活動，以增加學生對香港海洋環境和生物的認識及增強保育意識。這些活動包括學校講座、海岸導賞團、考察活動、清潔活動、展覽板借用服務、多種比賽及巡迴展覽。

我們希望透過舉辦不同的活動，與學校和老師攜手合作推廣環境教育，鼓勵學生認識、欣賞並保護我們的海洋資源。

Despite its small size, Hong Kong has a rich diversity of marine habitats and marine life. To protect these precious marine resources, the Agriculture, Fisheries and Conservation Department (AFCD) is committed to environmental education. In 2020-21 school year, AFCD will organise a series of education and publicity activities to enhance students' understanding of Hong Kong's marine environment and marine life, and their awareness of marine conservation. These activities include school talks, coastal guided eco-tours, field studies, clean-up activities, exhibition panel borrowing service, different competitions and roving exhibitions.

By organising various activities, we look forward to collaborating with schools and teachers to encourage students to understand, appreciate and protect our precious marine resources.
